

KIERAN GLOVER

UX DESIGNER / DEVELOPER

Portfolio - <https:kieranglover.xyz>

Profile

I'm a UX designer / developer from the UK specialising in human-centric digital product creation.

I have 4+ years experience working both at agencies and as a freelancer. I have worked on a variety of cross sector international projects—both as a designer, developer and project lead.

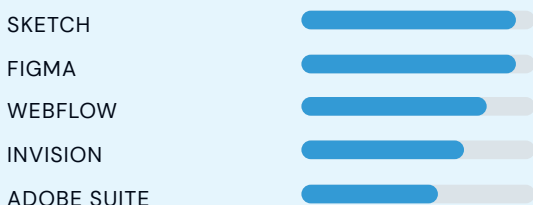

This combined with a strong business, marketing and communications background, ensures a user-centric approach to all projects.

Skills

Development

Design

Experience

2019 - Present **Senior front-end developer**
Mäd Creative Consultancy

After successfully delivering several mid-sized projects as lead developer, I had the opportunity to step up as a senior front end designer/developer with a special focus on rapid, mobile first web development. My current role involves continuous expansion of my technical skills (Webflow, Ghost, Modular CSS, Optimization, Vuejs) and leadership skills (leading design sprint sessions, interviewing potential candidates, project management).

2018 - 2019 **Front-end designer/developer**
Mäd Creative Consultancy

After working with Mäd's sister company Bloo, I moved over to the design team to keep up with the rapid increase of front-end design and development projects for some of South East Asia's leading companies. My main achievements were successfully completing the development work for the release of Mäd 3.1, project lead for Family Care First (part of Save the Children) and lead front end developer for the new ISI GROUP corporate website.

2018 - 2019 **Front-end developer**
Bloo

Applying my front-end development skills (VueJs, HTML5, SASS etc.) and specialist UX experience, I had the opportunity to work as part of a small agile team at the early stages of development. My responsibilities included engineering and maintaining front-end features and supporting materials.

Education

2015 - 2016 **MA Digital Media Practice**
University of Winchester

2012 - 2015 **BA Business Management**
University of Winchester
